TITLE OF INVENTION: METHOD FOR AUTHENTICATION BY CHEMICAL MARKING OR TRACING OF AN OBJECT OR A SUBSTANCE

APPLN. TYPE	SMALL ENTITY	ISSUE FEE DUE	PUBLICATION FEE DUE	PREV. PAID ISSUE FEE	TOTAL FEE(S) DUE	DATE DUE
nonprovisional	YES	\$755	\$300	\$0	\$1055	09/11/2009

THE APPLICATION IDENTIFIED ABOVE HAS BEEN EXAMINED AND IS ALLOWED FOR ISSUANCE AS A PATENT. PROSECUTION ON THE MERITS IS CLOSED. THIS NOTICE OF ALLOWANCE IS NOT A GRANT OF PATENT RIGHTS. THIS APPLICATION IS SUBJECT TO WITHDRAWAL FROM ISSUE AT THE INITIATIVE OF THE OFFICE OR UPON PETITION BY THE APPLICANT. SEE 37 CFR 1.313 AND MPEP 1308.

THE ISSUE FEE AND PUBLICATION FEE (IF REQUIRED) MUST BE PAID WITHIN THREE MONTHS FROM THE MAILING DATE OF THIS NOTICE OR THIS APPLICATION SHALL BE REGARDED AS ABANDONED. THIS STATUTORY PERIOD CANNOT BE EXTENDED. SEE 35 U.S.C. 151. THE ISSUE FEE DUE INDICATED ABOVE DOES NOT REFLECT A CREDIT FOR ANY PREVIOUSLY PAID ISSUE FEE IN THIS APPLICATION. IF AN ISSUE FEE HAS PREVIOUSLY BEEN PAID IN THIS APPLICATION (AS SHOWN ABOVE), THE RETURN OF PART B OF THIS FORM WILL BE CONSIDERED A REQUEST TO REAPPLY THE PREVIOUSLY PAID ISSUE FEE TOWARD THE ISSUE FEE NOW DUE.

HOW TO REPLY TO THIS NOTICE:

I. Review the SMALL ENTITY status shown above.

If the SMALL ENTITY is shown as YES, verify your current SMALL ENTITY status:

A. If the status is the same, pay the TOTAL FEE(S) DUE shown above.

B. If the status above is to be removed, check box 5b on Part B - Fee(s) Transmittal and pay the PUBLICATION FEE (if required) and twice the amount of the ISSUE FEE shown above, or

If the SMALL ENTITY is shown as NO:

A. Pay TOTAL FEE(S) DUE shown above, or

B. If applicant claimed SMALL ENTITY status before, or is now claiming SMALL ENTITY status, check box 5a on Part B - Fee(s) Transmittal and pay the PUBLICATION FEE (if required) and 1/2 the ISSUE FEE shown above.

II. PART B - FEE(S) TRANSMITTAL, or its equivalent, must be completed and returned to the United States Patent and Trademark Office (USPTO) with your ISSUE FEE and PUBLICATION FEE (if required). If you are charging the fee(s) to your deposit account, section "4b" of Part B - Fee(s) Transmittal should be completed and an extra copy of the form should be submitted. If an equivalent of Part B is filed, a request to reapply a previously paid issue fee must be clearly made, and delays in processing may occur due to the difficulty in recognizing the paper as an equivalent of Part B.

III. All communications regarding this application must give the application number. Please direct all communications prior to issuance to Mail Stop ISSUE FEE unless advised to the contrary.

IMPORTANT REMINDER: Utility patents issuing on applications filed on or after Dec. 12, 1980 may require payment of maintenance fees. It is patentee's responsibility to ensure timely payment of maintenance fees when due.

PART B - FEE(S) TRANSMITTAL

Complete and send this form, together with applicable fee(s), to: Mail Mail Stop ISSUE FEE

Commissioner for Patents P.O. Box 1450 Alexandria, Virginia 22313-1450

or <u>Fax</u> (571)-273-2885

Determination of Patent Term Adjustment under 35 U.S.C. 154 (b)

(application filed on or after May 29, 2000)

The Patent Term Adjustment to date is 882 day(s). If the issue fee is paid on the date that is three months after the mailing date of this notice and the patent issues on the Tuesday before the date that is 28 weeks (six and a half months) after the mailing date of this notice, the Patent Term Adjustment will be 882 day(s).

If a Continued Prosecution Application (CPA) was filed in the above-identified application, the filing date that determines Patent Term Adjustment is the filing date of the most recent CPA.

Applicant will be able to obtain more detailed information by accessing the Patent Application Information Retrieval (PAIR) WEB site (http://pair.uspto.gov).

Any questions regarding the Patent Term Extension or Adjustment determination should be directed to the Office of Patent Legal Administration at (571)-272-7702. Questions relating to issue and publication fee payments should be directed to the Customer Service Center of the Office of Patent Publication at 1-(888)-786-0101 (571)-272-4200.

Response to Amendment

1. The amendment filed on 01 March 2009 was accepted and entered.

Accordingly, changes have been made to the specification. Claims 1, 4, 6-9, and 15 have been amended. Claims 2-3 have been cancelled. No new claims have been

added. Thus, claims 1 and 4-15 are currently pending in this application.

2. In view of the amendment, received 01 March 2009, and the Examiner's Amendment, below, all previous objections and rejections have been withdrawn.

Priority

3. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

EXAMINER'S AMENDMENT

4. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Ronni Jillions (Re No 31,979) on 8 June 2009.

The application has been amended as follows:

Amendments to the Specification:

On page 1, please replace the paragraph beginning line 1, with the following amended paragraph: --The present invention concerns a method for authenticating objects or substances using chemical marking or tracing. It applies more particularly but not exclusively to the fight against counterfeiting, to automatic sorting[[...]] and also to make quality control and to have traceability of materials including recycled materials.—

On page 5, please DELETE the following paragraph before the paragraph beginning line 25: --Reading of identification code as well as authentication code can be done simultaneously at several levels with the manufacturer signature and an identification of the type or the grade of the material.—

On page 5, please DELETE the following paragraph after the paragraph beginning line 25, as follows: --In this method the coding and identifying steps can be coupled to pattern recognition step.--

Amendments to the claims:

Claim 1. (amended) A method for identifying and authenticating different objects or substances, the method using a computer system coupled to spectrophotometry means, said method comprising at least the two following successive phases:

- an initial phase comprising:
- choosing a plurality of chemical markers which, when excited by an incident light ray, emit energy radiations whose frequency spectra can be distinguished from one another

and with respect to objects and substances in which they are intended to be incorporated,

- allocating then incorporating, in each of the objects or substances, a combination of markers that is different than combinations allocated to the other objects or substances,
- determining an authentication code for each of the objects or substances defined using parameters comprising at least the presence or absence of markers in the allocated combination of markers,
- storing, a memory of the computer system, the authentication code of all the objects or substances and of related data corresponding to these said objects or these substances,
- allocating an identification code to <u>each of said objects or substances</u> the object or substance, said identification code being associated with at least one of <u>said objects or</u> <u>substances</u> the object or the <u>substance</u>, and a recipient or packaging for the <u>at least</u> <u>one of said objects</u> or substances,
- storing, in the memory of said system, the identification codes for each of the objects or substances,
- defining a correspondence between the identification codes and the authentication codes.
- an identification and authentication phase by said system comprising:
- <u>determining a theoretical identification code for one of said objects or substances</u>

 theoretical identification of the object or substance by reading the identification code

associated with <u>said</u> one of the objects or substances and/or and the recipient or packaging for the object or substance,

- spectrophotometric <u>analyzing</u> analysis of at least part of the <u>one</u> object or substance so as to detect said above parameters, and <u>determining an experimental</u> determination of the <u>one</u> object or substance,
- authentication of the object authenticating said one object or substance if the theoretical identification code corresponds to the experimental authentication code,
- emission of emitting a validation signal if a correspondence is detected or of an alert signal if the experimental authentication code does not correspond to the theoretical identification code,

wherein said spectrophotometric analysis comprises the following steps:

- determining zones of the spectrum to be analysed[[,]] <u>and</u> the different parameters allocated to each of these zones[[,]] using said above identification codes,
- irradiating the marked one object or substance with a light ray emitted by a generator,
- sending the transmitted or reflected waves onto a dispersing element which deflects them so as to obtain a light spectrum of the light intensity in said zones of the spectrum corresponding to different wavelength ranges,
- detecting the light intensity in said zone,
- comparing the detected light intensity with one or more threshold values specifically allocated to this said zone and which are recorded in memory as being said above parameters, and

Page 6

- using the result of this comparison in the determination of the <u>experimental</u>

authentication code of the object.

Allowable Subject Matter

- 5. Claims 1 and 4-15 are allowed.
- 6. The following is an examiner's statement of reasons for allowance:
- 7. The prior art of record does not disclose or reasonably suggest, along with the other claimed limitations, a method for identifying and authenticating different objects or substances comprising: namely, determining zones of the spectrum to be analysed and the different parameters allocated to each of these zones using said above identification codes.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to CAROLYN IGYARTO whose telephone number is

(571)270-1286. The examiner can normally be reached on Monday - Thursday, 7:30 A.M. to 5 P.M. E.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Dave Porta can be reached on (571) 272-2444. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.

/David P. Porta/ Supervisory Patent Examiner, Art Unit 2884
